# Landing Of U.S. War Materials At Vladivostock Likely To Bring War To East Asia

TOKYO, JULY 8 (REUTER)—POSSIBILITIES OF AN ARMED CLASH BETWEEN GERMANY AND THE UNITED STATES HAVE SUDDENLY MOUNTED WITH THE DESPATCH OF UNITED STATES NAVAL FORCES TO ICELAND TO REPLACE THE BRITISH FORCES THERE, DIPLOMATIC CIRCLES HERE BELIEVE, ACCORDING TO THE DOME! AGENCY.

Pointing out that the United States has entered the war zone between Germany and Great Britain by taking such an action, the same quarters believe the United States has been prepared against German attack, and add that keen interest attaches to Germany's attitude toward the new move by the United States which will be possibly followed by another despatch of United States naval forces to the Azores and the occupation of Dakar.

A big stride towards the war by President Roosevelt was how an Army spokesman described the United States' occupation of Iceland, at a Japanese Press conference in Shanghai.

### JAPAN WILL ATTACK RUSSIA

CHUNGKING, July & (Reuter)-The appointment of LIEUT.-GEN. PLAGAM as Commander of the Korean Garrison was interpreted here as an indication that Japan has decided to attack Russia.

The SAOTANGPAO, the Army paper, says Japan will move as soon as troop concen trations are completed, adding that Japan's talk of the move in the Southern Pacific is merely a "smokescreen."

### EMBEZZLEMENT OF \$10 THOUSAND ALLEGED

A warrant for the arrest of Li Sze-ho, allas Li cheang-ciling, in London yesterday that British wanted for the alleged embezzlement of \$10,000, the property of the Kai Hing Chong Import and Export Firm, No. 57, Connaught Road West, first floor, on May 13, has bean issued by the Police. · Aged 24, Li is described as of medium height and build, hair brushed back and parted on the right side. He spears Chiu Chau

and Punti dialects. A reward of \$500, which is valid for 12 months from June 11, will be paid to any person giving information leading to the arrest and conviction of the wanted

He said the action was of comparable importance to Japan in sending armed

ing troops to the N.E.I. could also be applied to southern French Indo-China and Thailand, the spokesman countered by asserting that just as the United States had not announced of sending naval forces to Iceland so Japan also was unable to give assurances re-

garding future actions. Answering another question, the spokesman said the landing of American war materials at Vladivostock was likely to bring war to East Asia.

An interesting paper entitled "The Lighter Side of Banking" was read yesterday at the weekly tiffin meeting of the Hongkong Rotary Club by Rotarian W. H. E. Thomas.

Rotarian Thomas said, in part: I have called my paper "The Lighter Side of Banking" as I wish to show that a dull occupation such as I follow has its lighter moments and that a banker is none the worse in his profession if he has a sense of humour, the possession of which adds piquamer to life in all its aspects.

Bankers as a class, as well as, "own private affair." The retheir profession, have to suffer all cipient's comment was! ### "GLORIFIED PAWNBROKING"

Then one often hears the ex- order. I later heard the Scotspression that banking is nothing man in charge of the Department but "glorified pawnbroking." There say to his Clerk, "Mr. So and So may be something in that. At what d'ye mean by mixing up the least, it certainly is the view held Mahommeds among the Macs?" by many clients. The Bank Manager in his experience sees a lot of human nature in all its aspects; some of it brave and upright in adversity; some of it very ugly; and a good deal of what may be termed "the seamy side of life.

It is no wonder that sometimes he becomes a little suspicious, cynical disillusioned towards the end of his days.

One point is sometimes lost sight of. The banker is not trading entirely with his own or his firm's money as in the case of a merchant: he trades with other people's money. In other words, he occupies the position of a trustee and, as such, must exercise additional

## EXTRA CALLS

You would be surprised at the extra calls outside the usual banking routine, made upon the banker's time. Women are the chief offenders in this respect. The amount of free advice one is expected to give dealing with births, marriages and deaths and even matrimonial differences, would make the mouths of my friends inthe legal profession water.

I think the underlying motive is, in most cases, to save the usual 6s. 8d. fee, or its equivalent in local currency, but sometimes it is a case of pure friendliness and, in its way, a compliment;

One attractive young matron in Peking some years ago once asked me to look after her two-year-old baby while she had her hair shinkled. I drew the line at that, although she assured me he was very good and gave no trouble.

# TROUBLESOME TOURISTS

Particularly troublesome at times are the tourists over rates of exchange. Especially was this so in the old silver days when violent fluctuations took place: and you can imagine the difficulty of trying to explain the intricacles of exchange to say an old lady, from the Middle West, whose banker in her Home Town had told her that she would get 'two to one" in Mexican dollars for every Gold dol-

# FORCES U.S. NAVAL IN ICELAND TO REPLACE THE BRITISH GARRISON

# Occupation Announced By President Roosevelt In A Special Congress Message

WASHINGTON, JULY 8 (REUTER)-THE DECISION OF THE UNI-TED STATES TO TAKE OVER CONTROL OF ICELAND to release the British and Canadian forces there for service elsewhere was officially revealed here yesterday.

The announcement disclosed that American naval forces have already arrived in Iceland. For the moment they will supplement the British forces. Gradually, they will replace them.

In a special message to Congress, announcing the arrival of the naval force, President Roosevelt indicated that units from the United States will eventually replace the British forces stationed in Iceland

### LETTERS EXCHANGED

The Presidential message was accompanied by the texts of letters; exchanged between Mr. Roosevelt and the Prime Minister of Iceland dated July 1, and the Message was in line with the understanding reached in this exchange, that the United States Navy would go to Iceland.

The Message stated that the assurance that "strategic outposts in the United States defence frontier should remain in friendly hands is the very foundation of United States national security and of the national security of every-

President Roosevelt added:-"As Commander-in-Chief, I have consequently issued orders to the Navy that all necessary steps be taken to ensure the safety of communications in the approaches hetween Iceland and the United States, as well as on the seas between the United States and all other strategic outposts.

This Government will ensure the adequate defence of Iceland with full recognition of the independence of Iceland as a sovereign state.

## IMMENSE IMPORTANCE

In his message to President Roosevelt, the Prime Minister of Iceland, Mr. Hermann Jonasson, stated that in a conversation on June, 24," the British minister" explained to him that the British forces in Iceland were required elsewhere. At the same time, it was stressed that the adequate defence of Iceland was of immense importance, and President Roosevelt was prepared to send United States troops immediately to supplement and replace the British troops.

Mr. Jonasson said he was informed that President Roosevelt did not consider he should take this course except at the invitation of the Iceland Government. This invitation had accordingly been issued upon eight conditions.

LABOUR PARTY ACITATION

CANBERRA, July & (Reuter)-The Communiwealth Government, headed by Mr. R. G. Menzles, may face some difficulties in the forthcoming budget session.

The proposed budget is believed to contain sufficiently contentious matters to provoke Labour hostility and the three Government defeats on minor issues in the House of Representatives last week are interpreted as pointing to a weakness in the Government position despite the statement by Mr. Curtin, Labour leader, that Mr. Menzles and he are concentrating on strengthening Australian defences and denying the

IMPORTANT CONTACTS When the Nazi Party in Japan gained strength, important con tacts were established with influential Japanese - pro Germans of the old school, the "young officer" class in the Army and po litical malcontents of all varieties. A good example of this contact method is seen in the case of the Tohokai, the most Fascist minded Party in Japan and headed by Seigo Nakano, who is noted for the toughness of "Gorotsuki" in

his pay. Dr. Walther Donat, Director of the Japan-German Cultural Institute, first met this uncultured per sonalty in the fall of 1938. Thereafter the Tohokai took a prominent part in the anti-British demonstrations in July 1939 and again in March 1940. Its members were right out in front the assault on the gates of the British Embassy.

# Heavy Rains Cause Floods In Shanghai

With stark reality, the all-day deluge on June 25 brought home Shanghailanders the fact that the wei season has undoubtedly errived. Those who had cause to be out on the streets after six o'clock in the evening were probably in the best position to gauge the intensity of the rain—the wisest and the wettest-as it was from time onwards that the downfall was heaviest.

## TORRENTIAL DOWNPOUR

Until well past midnight there was never a single break in the torrential downpour. Sheets of water swept along the roads, and inch by inch the water in the streets crept up; and the first flood of the season was in its making. Even early in the evening the most notorious low-lying districts of the city were under water.

If the fury of the rainfall remains unabated until daybreak toit appears inevitable that Shanghai will be facing a transportation difficulty this morning. Many areas will likely be isolated by water and motor cars will probably escape stalling in the floods only if they are fortunate.

## "LAKE DISTRICT"

One of the first regions to suffer when the flood-gates of the skies were opened was the famous 'Lake District" around the Sinceres, Wing On's and Sun Sun's. And in the western district, water was already lapping over the crown of the road cursion today.

Tracing the source of the present world war and the course of its extension, Japan ts really the tinder box which kindled the flame of the world war. Unless and until the Japanese menace is eliminated, there will be nomend to the world disturbance and no peace to mankind.

If Asia, America and all the European Democracles can consoli- States. late themselves under the banner of anti-aggression and co-operate closely, the Democracies will be sure of victory and the forces of aggression will be ultimately wiped

## IMPORTANCE OF PACIFIC

All the Pacific Powers must fully recognise the importance of the Pacific is not below that of Atlantic and in fact the position Asia is more important than that of Europe. The more serious the European situation, the more imperative and urgent is the destruction of Japan's power aggression.

Chiang further General pointed out that China has fought a hard struggle for the past four years not only for own self-preservation but also in the performance of her sacred duty to the mankind of the world. For the sake of their own interests and the future of world order, he said. the friendly Powers should first suppress the ringleader of the present world war. Jayan.

Thirdly inasmuch as the division of the aggressor nations and the anti-aggressor nations is clear that Japan. Germany and Italy have formed an aggression bloc. General Chiang urged all the peace-loving and freedom-loving nations of the world to unite in the common struggle against the force of aggression: មិន និង ដែលដី ស្រីក្រុង ដែលមាន ម៉ា ម៉ែន និង។

### PREVENTION **EVICTION OF** ORDINANCE MISUNDERSTOOD BY TENANTS-CRESSALL

THE APPARENT MISUNDERSTANDING WHICH SEEMS TO EXIST AMONG TENANTS regarding the Prevention of Eviction Ordinance was remarked upon by the Puisne Judge, Mr. Justice P. E. F. Cressall, at the Summary Court yesterday when he reserved judgment till Friday in a case claiming for possession of premises.

His Lordship stated that it appeared that most tenants seemed to be under the impression that the Ordinance was enacted so ely for their protection from the landlord and, because of this protection, they thought they could owe rents and still be protected.

That, his Lordship continued, was not the position at all, and pointed out that the Ordinance presupposed that a contractual relationship existed between the tenant and landlord. If a tenant claimed protection under the Ordinance he must prove that such

Hold First Annual Meeting

The first annual meeting of St Andrew's Fellowship was held yesterday evening in St. Andrew's Church Hall, the Acting Vicar, the Rev. H. A. Wittenbach, taking the Chair.

Presenting the first annual report of the Fellowship, the Hon. Secretary, Mr. Gordon Gardiner, recalled the circumstances of its inauguration and gave a detailed account of the year's activities.

AN EARLY FRIEND

An early friend of the new club was Mrs. J. P. Robinson, who did much towards the furnishings of the Club Rooms.

Membership had never been very large though at times it exceeded the 40 mark.

Concluding the report, Mr. Gardiner said that the Fellowship could set out with a plan to help wage war on the terrible social conditions existing in the Colony and could give its attention to more participation by its members in active work for the Church.
